RE: Legislative Conference

Dear Emily,

I am writing this letter to say thank you to the Executive Board and the members of LU 3657 for offering Andy and myself the opportunity to represent this great local by sending us to the Legislative Conference in Atlantic City, NJ. Director John DeFazio opened the conference and Don Harper read the Sexual Harassment Policy to us.

Andy and I had the opportunity to share our interests as well as our concerns with the other brothers and sisters of District 10. We had several speakers to present different topics to us, but the most important one that comes to mind was EFCA. Several politicians came and gave speeches as well. The conference was an enjoyable and educational one. I will never forget the experience. The highlight of the conference was the presentation that was given by Ike Gittlen (one of our very own).

Again, we would like to say thank you. If there is anything that we can do to help our great Local, please do not hesitate to ask.

Thanking you in advance.

Sincerely,

Shirley A. Bellamy
Administrative Assistant
